

I Wish To Marry My Best Friend

Dear Making Memories,

My name is Sandra. In 1998 I was diagnosed with cancer. I under went radiation and chemotherapy. Then in 2001 I had a reoccurrence. This time I found out I had mets. I under went chemo and radiation treatment again. They weren't able to fight the cancer this time. In November I was told I am terminally. Now hospice come into my home once a week. One of my wishes is to get married. Do to medical bills we could never afford to get married and have a honeymoon. Plus, I didn't want to get married with no hair. Now my hair has grown back and I wish to have the wedding I dreamed of. But, money is the issue for us. Having the wedding would give something for me and my boyfriend to have memories he can remember and a celebration the share with my family. It would be in away a family reunion and to see all of my family and friends that can make it. To share the joy and happiness. To see one of my dreams come true. I have a date set and put a deposit down on the church we want to get married at. Which is on a place near my home. I also have my wedding dress. I have dreamed of a western/ country wedding. Where we go off on a horse. I am hoping you will be able to help this wish come true. Which the date is also my birthday. Place to have a hotel for the weekend. Hotel to put family up that is coming up from out of town. My boyfriend name is Ray. He is also my best friend and caretaker.

Thank you,
Sandra
