

Dear Anna (and all!)

Just got back from our trip and it was fabulous! We can't thank you enough! We could finally forget for a short time about cancer + being sick. It was also timely because my husband found out he is losing his job in January.

What a magical place - we did swim with the dolphins which I've wanted to do since watching Flipper as a young girl.

We are amazed + we thank God everyday that people we don't know care enough to share with us. We pray God thanks you for us and blesses you lives.

Love  
Dan + Sue
